WORK EXPERIENCE

since Jun. 2018
MB SOLID consulting | Zurich | Switzerland
Position — **Freelance Software Architect and Developer**
Main tasks — Currently I work for the biggest electronic retailer of Switzerland, developing an innovative cloud-native event-driven eCommerce platform.

Dec. 2016 - May 2018
foryouandyourcustomers AG | Zurich | Switzerland
Position — **Software Architect and Developer**
Main tasks — I work in close contact with customers satisfying their business requirements and realizing new technical commerce solutions. I keep also myself up to date on new technologies such as new architectures (microservices) and containerization.

Oct. 2015 – Nov. 2016
webtiser AG | Zurich | Switzerland
Position — **Technical Team Leader**
Main tasks — My tasks go from approaching the most difficult issues in a project, identifying best technical and architectural solutions, being up-to-date on new hybris features and other technologies, up to mentoring and leading other developers.

Mar. 2014 – Sep. 2015
A.S. Watson Group Europe | Milan | Italy
Position — **hybris Senior Analyst and Developer**
Main tasks — My tasks go from approaching problems, identifying technical solutions, up to develop them. I design and develop new complex features of project, starting from back-end arriving to expose functionalities on front-end. These features are both commercial and technical. I am also working on Index Engine optimization and deploying new releases.

Mar. 2012 – Feb. 2014	Techedge Group S.p.A.	Milan	Italy
Position	**hybris Consultant and Developer**
Main tasks	My tasks go from analyzing all the business requirements, up to the technical development of both the architectural system and the infrastructural one. I work on both back-end and front-end sides, dealing with development of new modules for the communication with other third-party platforms, process management of checkout flow, catalog management and automation build process.
